

On August 28/29, 2011, catastrophic flooding occurred at Historic Old Fort Johnson. Here are just a few before and after pictures that help to tell the story. The before pictures are from August 29th at around 9:30 AM and most were taken from a row boat. The after pictures are from the same day at around 5:30 PM.

Clean up will be a multi-step that is just beginning. Any assistance, financial or otherwise, would be greatly appreciated. Please email either lorirulison@verizon.net or jim@oldfortjohnson.org if you are interested in volunteering.
